Board Policy**

BOARD WORK SESSIONS AND RETREATS

Policy 27

The Board, as a decision-making body, is confronted with a continuing flow of problems, issues and needs which require action. While the Board is determined to expedite its business, it is also mindful of the importance of planning, brain storming and thoughtful discussion without action. Therefore the board may schedule work sessions and retreats for discussion items in order to provide its members and the staff with such opportunities. Minutes will be kept of such meetings although the minutes may simply indicate that the meeting was held and the Board discussed a specific item of business, without providing further detail.

Adopted: 11/9/2004
